**Challenges and goals for the coming months.**

Challenge with the large demographics of the region and not being able to have face to face meeting it is hard to keep members engaged. As we do begin to have face to face meeting there is still a feeling of uneasy for members and hybrid meetings have become our new normal. Membership engagement has always been an issue but continue to look for new ways to over come this. The major bonus is going to be making those connections once again soon. As the PWD rep I will continue to reach out to HRC with in the prairies. I will also continue to build net work with those members who self identifies with PWD I believe that we are off to a great start to see some amazing activists rise in the prairies already but I believe the best is yet to come. I do look forward to continuing working more with each and everyone of you.

I look forward to seeing the great things in which we will accomplish in the rest of this term.

Stay strong stay safe!

In solidarity
