

MADELINE E. LEE, RACIALLY VISIBLE PERSONS REP
REPORT TO THE PRAIRIE REGION COUNCIL
JANUARY 31, 2025 – 2 FEBRUARY 2025

Since the last meeting I have been studying what this roll entails and encompass all its responsibilities.

In all my union activities I have attended, I have been networking and actively trying to recruit our racially visible members to become more informed of what PSAC stands for, and what power we hold. I ask how the Return to work mandate affect us, is their fairness and equality hiring, and are we getting recognition for the quality work that we do.

I have been keeping myself busy since our last meeting in September 2024. I have been attending several educational trainings and meetings that PSAC has provided.

September 16-20 I was at the Change makers training

September 7, I attended the Equity meeting

October 15, I attended an Edmonton area council meeting

October 28 to November 1st, I was at the Taking action with communications training

November 19, I attended an Edmonton Area council meeting

November 21, I attended a Racialized meeting with PSAC national virtually

November 27, Townhall Prairies Regional Health and Safety

November 28, I attended an HRC meeting for PSAC

December 1-6 attended my final week of Union Leadership Development Program by PSAC,

Goals that I need to accomplish, connect with all our different racialized visible person representative in each region, I want to attend their next meeting and listen to their concerns and bring them forward to the upcoming national meeting. I would like to sponsor an organization that affects a racialized community.

In Solidarity

Madeline E. Lee
