

AMY STOIK, SOUTHERN SASKATCHEWAN GEOGRAPHICAL REP

REPORT TO THE PRAIRIE REGION COUNCIL (LATE)

SEPTEMBER 13 - 15, 2024

Introduction

This report provides an overview of my various activities from January to September 2024, as the South Sask Geo Rep.

Ice Cream Truck Event - September 9, 2024

On September 9, 2024, I organized an event that brought an ice cream truck to downtown Regina in response to the return-to-work mandate. Despite being arranged on short notice, the event saw over 130 members from various offices and components in attendance. In preparation, I coordinated with all local area presidents to ensure broad participation and engagement.

GSU Picket Line - September 5-6, 2024

I joined the GSU picket line on September 5 and 6, 2024, where I showed support by bringing cookies and engaging in conversations with the members. It was a meaningful experience, as I had the opportunity to stand in solidarity with the workers and offer encouragement during their efforts.

Labour Day Picnic - September 2, 2023

I participated in the Labour Day Picnic, engaging with community members and fostering meaningful conversations about local issues and union initiatives. This event provided an opportunity to connect with diverse groups in the community and to actively listen to their concerns, helping strengthen the relationship between the union and the public.

National Triennial Convention - May 26-June 1, 2024

I attended the National Triennial Convention in Ottawa from May 26 to June 1, 2024. During this time, I had the opportunity to meet with several local presidents who were also in attendance, allowing me to strengthen relationships, foster solidarity, and provide ongoing support to fellow leaders.

PRC Meetings - February 2-4, 2024 (Winnipeg)

I participated in the Prairie Region Council (PRC) meetings held in Winnipeg from February 2-4, 2024. These meetings were focused on working towards the betterment

of our region. Additionally, the Education Committee convened to discuss strategies for enhancing educational initiatives across the region.

Area Council Meetings – Ongoing

I have actively participated in multiple Area Council Meetings, reaffirming my commitment to organizational activities and staying well-informed on regional issues. Additionally, I reached out to members of the mentorship program to assist in collecting winter gear for their initiative, as they had been unable to do so themselves. I successfully engaged other locals to contribute and support this effort.

Summer Outreach

During my summer holidays, I took the opportunity to meet with multiple local presidents in the areas I visited. I remained engaged with their concerns and made a point to attend as many events as possible. To further enhance these connections, I regularly baked and brought treats to the events, helping to create a positive and supportive environment.

Conclusion

I have actively engaged local activists and encouraged their participation within both components and PSAC. Moving forward, I remain committed to further engaging members, raising awareness about the return-to-office initiatives, and providing support to advance our collective goals.
